DIFF LOCK ACTUATOR GUARD

COMPATIBLE WITH TOYOTA LANDCRUISER 76" / 78" / 79" SERIES

The Diff lock actuator is located in a vulnerable position which can be subject to stone and other damage if impacted by unforgiving terrain when off road. This Toyota component is a genuine only replacement part – considerably more than the cost of a guard!

Manufactured locally in Australia from 304 Stainless Steel to ensure a lifetime of corrosion resistance. Easy install with basic hand tools.
