HIGH CLEARANCE FORGED RADIUS ARMS

COMPATIBLE WITH NISSAN PATROL GQ/GU

AUSTRALIAN DESIGN
REGISTRATION 202013441

WITH NEWLY DESIGNED
LOW PROFILE PIVOT BOX

Compliant with the NCOP with an increased front axle weight of 1800kgs suitable for GVM upgrades and engine conversions. Forged from a billet piece of chromoly 4150 then a rigorous heat treating process to result in the same tensile and yield strength as BIS80, with a higher ductile factor ensuring the material is elastic and able to bend further than BIS80 before terminal failure.

STRONGEST, LIGHTEST, STREET LEGAL

- INCREASED CASTER SUITS 60MM TO 100MM LIFT**
- NEWLY DESIGNED PIVOT BOX FOR INCREASED GROUND CLEARANCE OVER STANDARD DROP BOX DESIGN - IMPROVED CLEARANCE OVER FACTORY**
- INCREASED CLEARANCES TO OTHER COMPONENTS**
- INCREASED LENGTH TO CORRECT WHEELBASE ON LIFTED VEHICLES**
- E-COATED FOR IMPROVED CORROSION RESISTANCE AND MAXIMUM DURABILITY**
- ONLY 17.5KG PER SIDE - A 13KG SAVING ON VERSION 1**
